

PRESS RELEASE

ST. GEORGE'S, GRENADA, AUGUST 1, 2018, GOVERNMENT INFORMATION SERVICE (GIS) – After an almost two hour steady and heavy down-pour of rain, this morning, medical services at four government operated health facilities on the island has been affected.

The affected facilities are St. George's Health Center, Snug Corner, Crochu and Vincennes Medical Stations.

The decision to temporarily suspend services was, taken after a quick assessment of the affected facilities and consultations with senior health care managers.

In the meantime, clients in the affected serviced-areas are encouraged to utilize the services that are available at non-affected facilities closest to them; and exercise caution in accessing areas that may be prone to flooding and slides.

The MOH sincerely apologizes for any inconveniences this may have caused. The MOH will continue to monitor the situation and would update the public as necessary.
